## SADAD Person-to-Person App - Solution Architect

Tata Consultancy Services | Riyadh, Saudi Arabia

SADAD P2P is a hybrid application rolled out for the Saudi Arabian Monetary Agency, which enables the customer of any associate bank can transfer money to any other associate bank customer using their phone number. As a solution architect, I was entrusted to provide a foolproof banking application with an emphasis in mitigating, finding, and resolving security risks related to hybrid applications.

Responsibilities also included making contributions towards application architecture, conducting discussions with all stakeholders, provide up to date status for all stakeholders, and providing technical support to the offshore team. The main challenges faced in this project were security risks in Hybrid applications and time-boxed delivery. I have developed Cordova libraries for binary protection, jailbreak/routed detection, etc.
