SADAD Person-to-Person App - Solution Architect

Tata Consultancy Services | Riyadh, Saudi Arabia

SADAD P2P is a hybrid application rolled out for Saudi Arabian Monetary Agency, which enables customer of any associate bank can transfer money to any other associate bank customer using their phone number. As a solution architect, I was entrusted to provide a foolproof banking application with an emphasis in mitigating, finding and resolving security risks related to hybrid applications. Responsibilities also included making contribution towards application architecture, conducting discussion with all stakeholders, provide up to date status for all stakeholders, and provide technical support to offshore team. The main challenges faced in this project were security risks in Hybrid applications and time-boxed delivery. I have developed Cordova libraries for binary protection, jail break/routed detection, etc
